

movie about to start ①

But it'll be okay  
I have beer.

→ Aliens killed the dinosaurs. →

The movie starts with an adorable CGI dinosaur running away from an explosion, There is slow motion.

"We are geologists first" WHAT  
Not sure how I feel about this

Less than 10 minutes in and surfer dude pauses to leer at two extremely tan women, UGH,

"Dancin girls with the big chachas"  
WTF (this from the old guy at the theater)

First introduction of women - "almost time to get a tan and get wasted!" But these are apparently high school girls

Suddenly exposition. As you know Bob "the age of the transformer is over"

Like basically every <sup>male</sup> character but Mark Wahlberg's is introduced by making a really sexist comment

Oh except he is super possessive of his daughter's virginity (criticizing the length of her shorts) is every fucking guy in this movie going to talk about how hot his daughter is.

First black people are fat and he runs them off his property because he's late on his payments

Apparently he's a manchild his daughter feels compelled to take care of and "be the adult"

Then we're hunting down a Transformer ~~the~~ Ratchet :)

②  
Okay so apparently there's  
an evil transformer who hates  
both sides and wants Optimus,

Beer #1 finished with the  
weird super awkward scene w/ the  
POTUS's ineffectual Chief of Staff.  
Apparently the POTUS has no idea  
what's going on and the CIA is  
calling the shots.

Mark Wahlberg is trying hard to  
be Tony Stark.

"I don't think you can own someone.  
That was a while ago. Even in Texas."

WTF is going on in the arctic?  
Makes no sense. Such dick waving.

"Savoy, use the girl" ~~no~~  
throw the girl on the ground  
This is sick.

The house explodes as  
they run away from it.

"His name is Shane and he  
drives"

This car chase is very  
incoherent.

I am amused that Shane ~~B~~  
wants to talk about relationship  
and Yeager is like SHUT UP AND  
DRIVE.

Intercutting chase + optim's fight  
makes neither make sense.

"Grab my stick", really?  
"Best hands in the business"?  
really?

Explosions! run from them!

Now we know what the explosions  
do. Turned Lucas into a  
statue.

③

If only we gave a fuck about Lucas. Nope.

Everyone is hostilely from Texas.

This guy has like no steady accent. WTF.

~~The~~ Oh and here's the creepy Romeo + Juliet law thing.  
HE CARRIES THE LAW WITH HIM. (17 + 20 year old)

This entire scene fills me with hatred.

← (Optimus)

So he knows they're ~~not~~ hunting Autobots but still; ~~auto~~autobot logo? And feeling better

I guess.

Oh look ~~new toys~~ characters I mean.

The samurai character wtf.

Ken Watanabe Why  
This feels weird and gross  
to me.

Why do the women keep  
getting dressed in white?

Because geologists totally  
wear white.

Yep. Dinosaurs were wiped out  
by aliens.

Oh boy the CEO creepily hitting  
on the geologist.

"You were talking about your  
ex girlfriend who was sexy  
but a bitch" FOR FULK'S SAKE

All the jokes about "I'm making  
out with the underage girl!"

"I am possessive of her  
virginity!"

④ 2<sup>nd</sup> Beech Dawn  
Calling the Asian woman his  
"delicate flower" WTF.

Bumblebee continues to be  
the only good thing.

Now we're talking about a "seed"  
that they supposedly need.

Now the man made Optimus  
thing versus Optimus.

Alcoholic Sundae go.

Oh are we going to sort of  
but not really kill Optimus  
again? Wheeee

And then they don't kill Optimus  
but take him and randomly  
tessa so there can be  
SO MUCH MANPAIA

I JUST WENT TO PEE  
AND IT'S ONLY 8:45  
HOW THE FUCK IS THERE  
STILL OVER AN HOUR  
LEFT OF THIS SHIT  
FUUCK EVERYTHING

I might have missed something

IDK pee was way more  
important.

Now team manpain  
is having a dicknaving  
contest over Tessa on the  
alien ship.

You are awful fucking loud  
for being ~~on~~ in enemy  
territory.

5

So Tessa is being chased  
by robot dogs for some reason,  
She does a lot of screaming  
and crawling backward,  
Good thing someone just  
waxed the floor.

Even the alien being tortured by  
hanging upside-down in a cage is  
pervy at Tessa. Are you fucking  
serious.

So apparently they have scuttlers.  
~~And~~ okay then.

And suddenly we are throwing  
the word Bitch around  
"Take that bitch"  
"Don't bitch out on me"

The physics of them being on  
the cables  
what the fuck ever

oh time for Tessa to freak  
out and crawl backwards to the  
ship. This is ridiculous.

I hate this movie so much,

and then there's a lot of  
~~CGI~~ CGI flying around I bet  
the video game will be way  
more interesting.

Transformers you do not even  
deserve your score.

Alcohol ~~to~~ finished  
send more

I think they ~~to~~ crashed.  
Don't know why

Bud Light REALLY???

whatever

This isn't even funny  
No don't drink that mark!  
It's terrible.

②

"Sweetie, hand me my alien gun."

Okay.

So now everyone got off the big ship which flew away and now we're back to the fake Transformer prototype but we are moving to China because reasons.

WHAT WAS THE FUCKING POINT OF THE LAST 45 FUCKING MINUTES ???

I hate you Michael Bay.

"He infected it with his evil, nasty Chromosomes"

Oh but it's really Megatron so he's actually the bad guy

and now she "sued" again.

THIS MAKES NO SENSE

What was the point of this  
Shit?

God this plot is stupid even  
for Transformers. It's complex  
and nonsensical and why. Why  
is any of this happening?

Who the Fuck sleeps like that?

Oh now we're bargaining over who gets  
to protect the obviously helpless woman.  
~~And~~ male bonding. yay.

This is so gross. Everything about  
this thing over Tessa is gross.

And now we're in China

I think plot is attempting to  
happen with the evil CIA guy.

But thankfully "Galvatron" has  
woken up for no reason.

So that's nice.

And suddenly Megatron is the  
villain again  
and wants

people to find his  
seed hahaha

So basically Michael Bay (7)  
wants to destroy a city with  
~~the~~ Megatron's enormous camshot.  
You more alcohol, I may  
survive!

Stuff explodes. Who cares why.  
Look mark, Optimus has had enough  
of your shit.  
Optimus you are Mark's newest  
unintended pregnancy. I hope  
you feel ashamed.

And now we're on a motorcycle with  
the pizzabomb because... IDK,  
we are all the completely unimpressed  
Chinese people. I foel ya man.

Oh of course she saved your life  
and it's "I find ~~her~~ her  
incredibly attractive." Fuck you

# Pee break #2

Nothing seems to have changed ultimately

People are chasing each other around, lots of shaky cam.

Sometimes the score sounds way too like Tron2."

Oh look Tessa is hiding behind another car and biting her perfectly made-up lower lip.

Oh look. A football. How all American,

"Recognize one of you knights"

Wut.

"The legend exists" "time for reinforcements"

WHAT LEGEND  
WHAT REINFORCEMENTS  
What the fuck is this shit even.

⑧

More stuff is happening.

WTF

Random Optimus identifying dinobots  
only the Grimlock like it yet

There we go.

Where did they come from?

I don't get any of this

This is dumb

And then Optimus rides

Grimlock because what even

This is dumb.

Where did the dinobots come

from and how did Optimus

know how to find them?

Oh it's serious. It's all in

slow mo now.

Oh look Victoria's Secret on a bus

"All he wants to hear you say is  
some things should not be invented."

Really Mark I thought you  
were an inventor.

(Apparently I missed this  
super important plot point whilst pissing.)

Trying to ascertain the point of  
the geologist character, sadly.

THIS MOVIE IS NEVER  
GOING TO END. HELP

So now the "bounty hunter" guy  
is back because... I guess it wasn't  
long enough already?

Now a bunch of scenes w/ government  
people in Hong Kong that seems to  
have no actual connection to the plot.  
Like there's even Chinese they're  
not bothering to subtitle.

"Like a big magnet!"

"It's sucking up metal and  
dropping it!"

WHO GOT PAID TO WRITE  
THESE LINES. ???

Geologist says "I'm proud of you!"  
and fucks off when evil Business  
guy says to? WTF ???  
Oh that's right she's the prize for  
him.

(18)

She is ~~blonde~~ blonde  
after all. And wore white.

Oh look Mark is symbolically  
giving Tessa to Shane. Barf.  
So he can... what. Help Optimus,  
somehow.

But no Tessa isn't leaving  
her dad stop the car.

Leave your dad Tessa. Stop prolonging  
this shit show.

~~Oh~~ Oh yeah there's a fight  
or something.

Oh CIA guy, God and country  
blah blah blah, whatever,  
he died, who cares.

And there is Tessa! Back to the  
useless I guess.

The bad guy died. I guess the humans helped.

Tessa: "Still glad you met me?"  
just... and then kisses Shame  
like ~~but~~ because.  
This makes no sense.

I hate this movie.

"Honor til the end"

How so, Optimus?

Oh man hugging

Optimus makes a speech  
"Brave warriors"

Business dude: "Did you miss me?"

Chinese lady: "No"

Oh good I don't have to flip  
the table.

"Kael when you look at the stars,  
think of one of them as my soul."

WHA

Fuck  
THIS  
MOVIE

Oh look the setup  
for the next  
movie and a rock  
song.

I hate everything.
