POP LIFE.

When [Olivia Rodrigo](#) crossed over from her Disney acting origins to a prime pop takeover with her debut album *Sour* in 2021, she came ready-made with an enviable closet. The hit music video for “Good 4 U” found her channeling *Jennifer’s Body* with cheer outfits and long black opera gloves, setting the tone for the youthful energy that inspired her work. (It also became a strong contender for Halloween costumes that year.)

In the two years since *Sour*, Rodrigo is gearing up for the release of her second album, *Guts*, out tomorrow. And in doing so, she has also continued to cement herself as an inspirational figure for Gen Z fashion.

Whether it’s for a high-profile appearance or a casual day-to-day look, Rodrigo opts for vintage archival pieces. At the MTV Movie and TV Awards last year, she rocked a halter John Paul Gaultier black dress — believed to be made around 1987, according to *Cosmopolitan*.

IN CASE YOU MISSED IT

BTS' Suga started his mandatory military service, but with a different approach.

Sophie Turner filed a lawsuit against **Joe Jonas**, as the latest development in their divorce.

Britney Spears' cult-classic film *Crossroads* is coming back to theaters.

Selena Gomez created quite the buzz with her latest TikTok, which addresses her relationship status.

NUMBER ONE STUNNERS

DRAKE AND SZA

Drake's "Slime You Out" collaboration with SZA has reached the top of the Hot 100, marking its first week on the chart. With this news, both artists reach a new level of success. SZA is now the first in 2023 to have more than one No. 1 hit, as her "Kill Bill" song also charted. As for Drake, the Canadian rapper needs just one more chart-topping song before he will tie the previously-mentioned Michael Jackson as the male

soloist with the most hits.

BUBBLING UNDER

HANNAH DIAMOND

Hannah Diamond recently dropped her new *Poster Girl* EP, which includes four songs, ahead of her full-length album next month. The

title track opens the project, giving us a pop-vibe in the production — and proving why she's earned her name. Whether she's leaning into a robotic style on "Perfect Picture" or slowing the pacing down while keeping the synths on the emotional "Staring At The Ceiling," she always maintains control of her versatile vision.

REMEMBER WHEN

MICHAEL JACKSON'S NO.1

This week in 1987, Michael Jackson started his run at No. 1 for his seventh studio album, *Bad*. It would stay there for six consecutive ones on the *Billboard* Hot 100. With hit singles like "Dirty Diana," "Smooth Criminal," and more, it's no surprise that his tour for the record was also the highest-grossing of the '80s.

LOVE LETTERS

KYLIE MINOGUE

Kylie Minogue's *Tension*, as her fans have described, is delivering everything they could've dreamt of. As someone who really only knew "Can't Get You Out Of My Head" before this, it has been a cool experience to follow the internet through this album release. The viral "Padam Padam" was also stuck in my head, as it was inescapable on TikTok.

As for the rest of the record, it's full of equally exciting dancefloor anthems like the spacey "Hold On To Now," the nostalgic "The Things We Do For Love," and the carefree "Vegas High." (I've also found that the *Bubbling Under* pick perfectly compliments this album, if any Minogue fans are looking for another recommendation.)
